# Team Presentation

Dango Team

28.04.2020

DANGO Team

Aarju

- ORBA student
- Skills & Exp: Data Analytics, Transportation And Routing Algorithms, Logistics and Supply Chain Management

Abdalla

- ORBA student
- Skills & Exp: Java, SQL, Modeling, Computational Finance, Data Science, Risk analysis
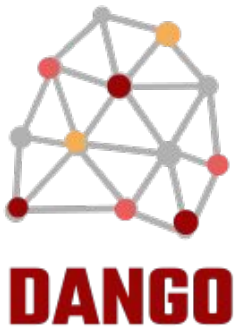

Diego

- ORBA student
- Skills & Exp: Java,SQL, Management , Vehicle Routing, Digital Business and Analytics, Modelling

Nga

- ORBA student
- Skills & Exp: Vehicle Routing Problems, Visual Analytics, Sentiments Analysis
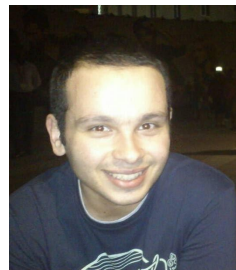

Personal Motivation

Apply my knowledge in building an app and learn to debug, use APIs and optimize code
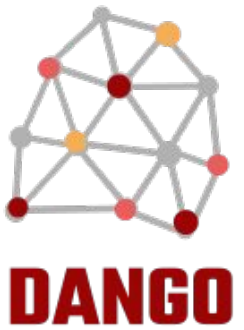

Find and build an effective and reliable solution for looking out and staying connected to my peers

Gain the ability to integrate Google map and other APIs with Routing Algorithms

Learn software engineering skills to execute my innovative ideas
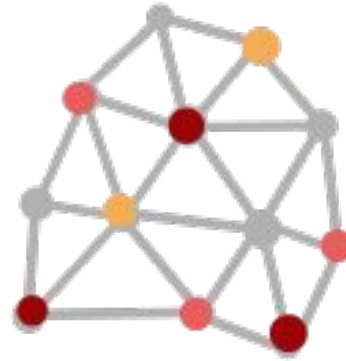

Project

DANGO

What?

GET HOME SAFE:

Automatically communicate that you/your friend got home safe

Why?

- Streets are unsafe at night,especially for women
- Make sure friends arrive home safely and put your mind at ease
- Quick contact in case of emergency

How?

- Track location of a friend, along the path to their home
- Push notification if the friend has arrived home safely or face emergency

Thank you for listening!
